

#2729

Mineral Harmony®

# FRESH H2O

Swim+Spa Water PreFilter

The ultimate fresh fill prep!  
Removes the bad things  
in water before you fill  
your pool or spa.

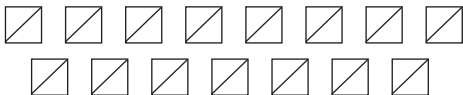

**DIRECTIONS:** Connect the FRESH H2O Pre-Filter to a garden hose.  
Flush filter for approximately 30 seconds before starting to fill.  
Filters 7,500 Gallons - 28,000 Liters

## USAGE METER

Mark a box each time you use the filter with approximate usages.

Each box represents 500 Gallons / 1,865 Liters:

Mark  $\frac{1}{2}$  a box for lesser usage.

When all boxes are marked, it's time to replace the FRESH H2O Pre-Filter.

Do Not Allow to Freeze • After use, stand on large end and let dry 24-48 hours.  
Once dry, replace end caps and store in a cool, dry place.

Active Agents: Polypropylene, Activated Food Grade Carbon combined with a unique  
REDOX Catalytic (Oxidative) Filtration Media

Removes TOC's, VOC's, Chlorine by-products and suspended solids.
