

# SWIM+SPA LIFT

Increases pH and Alkalinity of Water

ACTIVE INGREDIENT:  
Sodium Bicarbonate.....100%

## CAUTION

### KEEP OUT OF REACH OF CHILDREN

See side panel for first aid and additional precautionary statements.

Net Weight: 2 lbs.

**Mineral treated water requires the regular testing and balancing of the water for the minerals to perform properly. Mineral Harmony was developed exclusively for use with mineral treated Swim+Spa water.**

**SWIM+SPA LIFT** increases the pH and alkalinity of water. The total alkalinity of the water should be maintained between 80 and 150 ppm. The pH should be within 7.2 to 7.8 ppm.

#### DIRECTIONS FOR USE:

**SWIM+SPA LIFT** should be used whenever total alkalinity is below 80 ppm.

1. Add **LIFT** as follows. This dosage will increase the total alkalinity approximately 10 ppm and may be added directly to the water when pump is on:

| pH<br>LEVEL | Dosage per 1,000<br>Gallons of Water |
|-------------|--------------------------------------|
| 6.8 - 7.2   | 2 oz. (4 tablespoons)                |
| Below 6.8   | 4 oz. (8 tablespoons)                |

2. After initial application, allow water to circulate approximately 2 hours.

3. Retest total alkalinity and add second dose of **LIFT** if required. Continue process until total alkalinity falls in desired range of 80 to 150 ppm.

4. Once proper alkalinity has been obtained, test for a proper pH range of 7.2 to 7.8.

5. If pH needs to be raised, use **LIFT** at a rate of 1 oz. per 1,000 gallons.

6. Wait 30 minutes, retest and adjust as necessary.

**NOTE:** Draining and cleaning of the spa or hot tub is recommended every 3 months. Never mix this product with any dry or liquid chlorine product as a dangerous reaction may occur.

Made in the USA

**CAUTION:** Avoid contact with skin or eyes. Wash thoroughly after handling. This product may be irritating or harmful if taken internally. Do not store this product in close contact with chlorine products. Do not mix with any other chemical – mix only with water.

#### FIRST AID:

**EYE CONTACT:** Hold eye open and rinse gently with cool water for 15-20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**IF INHALED:** Move person to fresh air. If irritation occurs, get medical attention.

**SKIN CONTACT:** Wash all affected areas with soap and water. Get medical attention if irritation occurs and persists. Wash clothing with warm soapy water before reuse.

**IF SWALLOWED:** Rinse mouth with water. Dilute by giving 1 or 2 glasses of water. Do not induce vomiting. Never give anything by mouth to an unconscious person. If symptoms persist contact a doctor or a poison control center.

#### STORAGE AND DISPOSAL:

**STORAGE:** Store in a cool, dry place. Keep product in tightly closed container when not in use. Store out of reach of children and away from heat.

**DISPOSAL:** Place empty container in trash or offer for recycling if available. To dispose product in partly filled containers or for large quantities call your local solid waste agency for disposal instructions. Do not reuse empty container.

**Buyer assumes all responsibility for safety and use not in accordance with directions.**
