

SWIM+SPA LOWER

Decreases pH and Alkalinity of Water

ACTIVE INGREDIENT:

Sodium Bisulfate95%

Other Ingredients.....5%

TOTAL.....100%

DANGER • POISON

KEEP OUT OF REACH OF CHILDREN

See side panel for additional
precautionary statements.

Net Weight: 3 lbs.

Mineral treated water requires the regular testing and balancing of the water for the minerals to perform properly. Mineral Harmony was developed exclusively for use with mineral treated Swim+Spa water.

SWIM+SPA LOWER will decrease the pH and alkalinity of the water. The total alkalinity should be between 80 and 150 ppm. The pH should be between 7.2 to 7.8. High pH can cause scaling, cloudy water, and eye irritation.

SWIM+SPA LOWER should be used whenever pH levels are above 7.8.

DIRECTIONS:

For best results, dissolve granular products first by adding to a small container of water. Then add the dissolved product to the spa.

1. Make sure all equipment is OFF.
2. Add **LOWER** as follows:

Gallons of Water	Current pH Reading		
	7.8-8.0	8.0-8.4	Above 8.4
1,000	1/2 oz.	1 oz.	1-1/2 oz.
2,500	1 oz.	2 oz.	3 oz.
5,000	2 oz.	4 oz.	6 oz.

3. Turn ON the circulation system and run for 30 minutes.
4. Retest water. If the pH is still above 7.8, repeat steps 1-3. It is better to lower the pH in gradual steps then add too much product and drop levels below 7.2.

DANGER - CAUSES SEVERE BURNS

This product contains sodium bisulfate. Avoid contact with skin, eyes, or clothing. Do not mix with household chemicals. Do not mix directly with other spa chemicals. Harmful if swallowed.

FIRST AID:

IF SWALLOWED: Call a poison control center or doctor immediately. If conscious, immediately give 2 to 4 glasses of water, and do not induce vomiting unless told to do by poison control.

EYE CONTACT: Hold eye open and rinse gently with cool water for 15-20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

SKIN CONTACT: Immediately flush with water for 15 minutes. If burns occur obtain medical attention.

STORAGE AND DISPOSAL:

STORAGE: Keep dry and in original container in a cool, dry, well-ventilated place. Do not store with chlorine, bromine, or oxidizing agents. Keep container tightly closed when not in use.

DISPOSAL: Use entire contents, then triple rinse and offer for recycling or dispose in accordance with state and local regulations. To dispose product in partly filled containers or for large quantities call your local solid waste agency for disposal instructions. Do not reuse empty container.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.
