

# Reserve

This specially formulated mix of bromide salts becomes a powerful bromine sanitizer when combined with Leisure Time **Renew**. Not only is this two-part system completely chlorine-free, but there are no unpleasant side effects typically associated with other non-chlorine sanitizing systems. Use **Reserve** as part of the **Reserve & Renew® Sanitizing System**.

## Features:

- A bromide solution for use with Leisure Time's **Renew** as part of a system for disinfection of water in spas
- 100% bromine sanitizer
- Easy-to-use liquid

## Applications:

### Weekly:

1. Treat the spa with **Metal Gon** according to its label directions.
2. Add **Reserve** (4 oz./250 gallons of spa water) directly into the spa while circulating the water to assure rapid and thorough distribution.
3. Add **Renew** to activate the bromide bank for a bromine residual.

## Tips:

Heavy usage may result in depletion of bromine and require additional dosages of **Renew** and/or **Reserve** to maintain the desired bromine residual. Change water monthly or as needed to maintain water quality.

## Advantage:

Use weekly as part of **Reserve & Renew® System**. Part of the **Simple Spa Care® Program**.
